

TUUDO

Tuudo user guide

Tuudo is a mobile app for students in higher education that allows them to access their study-related information and other services that make their everyday life easier. With Tuudo, students can check their schedules, courses completed, maps of the campus, important services on the campus as well as campus canteen menus. Tuudo is easy to use. It's available to download from Google Play Store and Apple App Store for Android and iOS respectively.

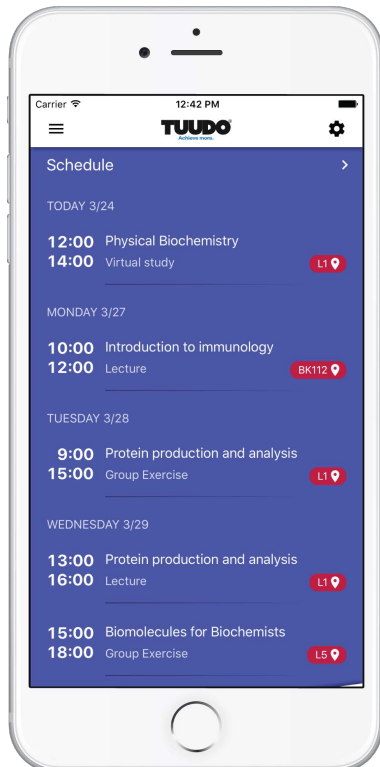

Page menu

Tuudo's page menu shows you all of Tuudo's functions. The People and services menu shows you the main services at the university or polytechnic and their contact information. Go to Settings to change the app's content language and to sign out of the service.

1.

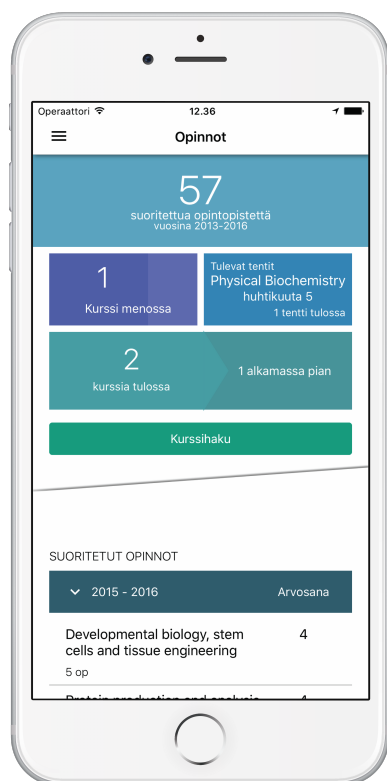

The Contact menu allows you to send a message directly to Tuudo's developers in case you have any questions or ideas. You can also send an email to info@caledon.fi or a message through Facebook.

Home screen

When you log in, you see the home screen, which features the most important Tuudo services: schedule, news and notices as well as the menu of the restaurant of your choice.

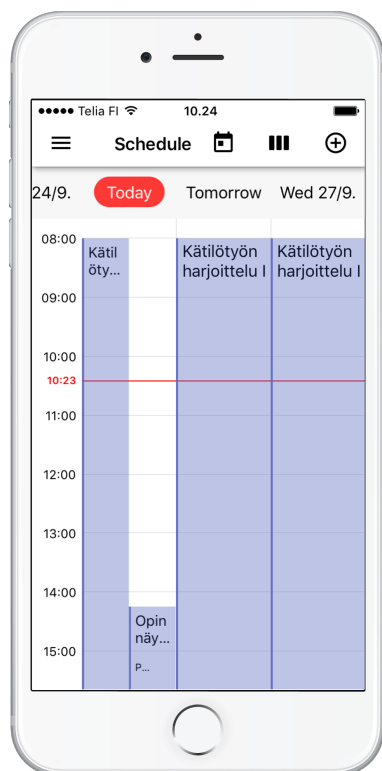

2.

3.

Studies

The Studies view shows your courses completed, a search for available courses as well as your current and future studies. When you search for courses, you will find information about their implementation and can register for future course events. You can follow course events and they will be shown in your schedule and future studies, even if you haven't registered for the event yet because, for example, the registration hasn't started

4.

Schedule

The schedule function features your current and future studies as well as your own notes that you can easily add by tapping the +- sign.

Your schedule is compiled automatically from your registrations and also shows the courses you follow.

The map function shows the maps of your university or polytechnic at both campus and building levels with the marked locations. The map view allows you to browse specific locations by tapping the magnifying glass.

5.

The Restaurants view shows you the lunch menus of all the campus canteens.

6.
